Sukkur

Bachelor of Science: Computer

Science

2021 - Current

I am an undergraduate student at Sukkur IBA University, currently in my 5th semester, consistently active and dedicated to improving my technical skills.

Summary

Enthusiastic and dedicated undergraduate student at Sukkur IBA University, currently in the 5th semester of BSCS. Eager to improve and apply my technical skills, I thrive on actively engaging with projects in areas like React.js. Committed to continuous learning and growth, I am poised to contribute my passion and drive to dynamic and collaborative environments.
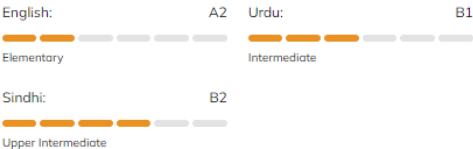

·

Experience

React Developer

No | Sukkur, Pakistan | November 2023 - January 2024

- I developed a Quiz App with real-time feedback using React Hooks, ensuring an intuitive and engaging user experience with a focus on interactive design and efficient state management.
- .I creatively crafted the FitClub Gym website with captivating animations, a responsive layout, and effective showcasing of offerings. This project reflects my commitment to creating visually dynamic and user-friendly web applications.
- Passionate about React.js, I'm actively engaged in diverse projects, showcasing my continuous commitment to creating innovative web applications beyond the FitClub Gym website and Quiz App.
